

MTSS Tier III Parent Notification

Date:

Dear Family of _____,

Carter County Schools have a great deal of pride in our instructional framework of explicit direct instruction. As part of our culture, students take diagnostic tests to see what they know. We administer iReady three times per school year in Reading and Math.

I have been reviewing and reteaching your child, _____, for several weeks in the area of _____. At this point, I need to change strategies, and will be working more often with your child one-on-one. Additionally, your child is encouraged to participate in after school tutoring through our ESS (Extended School Services) program. I will continue working one-on-one with your child or in small groups to work on missing skills and reinforce mastered concepts. I will formatively assess your child's daily progress to adjust the types of instructional services I provide.

This is how you can help your child with our current standard.

Let's keep working together.

Sincerely,
